# RACING AT MONMOUTH PARK.

SIR WALTER AND HORNPIPE SUCCEED.

STRENGTH OF THE KEENE STABLE-RAMAPO'S POOR RACE.

There was little about the racing at Monmouth Park yesterday that one could become enthusiastic over unless it was Sir Walter's triumph in the Stockton Stakes. It is true he did not have st. Leonards to heat, both St. Leonards and Don Alonzo declining the issue, but with 129 pounds on his back the stout little colt romped home in front of Daily America. Ramapo. Rainbow and Redskin, running the mile and a quarter in 2 08 1-4.

In the Tyro Stakes, which was also decided, Hornpipe, from the stable of James R. & F. P. Keene, succeeded in earning the victory. He beat Dobbins and Jack of Spades without a great deal of trouble, but found no mean adversary in Sam Lucas, one of Marcus Daly's colts, which but few believed had a ghost of a chance. So little was he thought of that to 1 was laid against him. He jumped into the lead at the start, and at the end of balf a mile was still in front with the others driving to catch him. At one time it looked as if they might not de it, and bookmakers to a man, hoped that they would not. but in the last hundred yards, the pace he had set began to tell, and he was compelled to relinquish his lead. Hempipe passing him and winning. The time, 1:00, was excellent, and gives additional proof of the strength of the Keane Stable in two-year-olds. The Keenes hold a first mortgage on almost all the two year-olds stakes for the rest of the year, and there is no question that the stable's winnings for the season will be the greatest in the history of the American turf.

The other races were of the regular order. Har est was a 6 to 5 favorite for the opening contest. was compelled to lower his colors to the Gloncester colt Artillery, who was second choice at 3 to 1. M. F. Dwyer's bets were on Artillery for

the place.

Fairy, looking and running but a shadow of the great mare she was when in other hands, was a 3 to 5 favorite for the second race. She fluished 3 to 5 involve for the second and his friends reaped a harvest in the fifth race on John/Cooper, a colt of fair reputation in the West.
The brain for the last race was a driving one between Littlefield, on Beansey, and Carter on Deception.

Harvest and Artillery had things their own way after the first quarter, and ran neck and neck until the finish was right at hand, where Artillery began to draw out, and at the end won by a length; Harvest second, three lengths in front of Lena Oliver gelding, that best Alonzo a nose. SECOND RACE—Handicap. One mile and a quarter.

Bonaventure and The Ironmaster were the absentees

Fairy was very sore at the post and ran so all through the race, never being better than third, where she finished. White Rose was the pecemaker for half a mile, then, when joined by Roche, seemed to lose heart, the finish finding Roche the winner by half a length. Fairy was third, four THIRD RACE-TYRO STAKES. THE BRIGHTON BEACH RACES. The card at Brighton Beach yesterday was not as heavy as usual, but what it lacked in quantity it made up in quality. The racing ranked among the beat that has taken place at the track this meeting. Four favorites and two second choices won. Two dead heats occurred. In first race Lizzie McDuff and Nockbarren ran a dead heat for place honors. Violetta and Pauline did the same heat for place honors. Violetta and Pauline did the same in the second race. In the third race the Billet Doux colt secured first place from Westchester by a nose. Dicker-son and Fidelio, the two favorites who failed to wip, were short of work and should not have been started. McDermott still continues to show that he is by far the best lockey riding at the old track by the sea.

#### A TRAINER'S NOTES ON THE TURF

Lamplighter looks light and shows the effects of his hard campaign. He has been in active training since March 1. All of the races in which he was entered last winter were handicaps or weight for age races. The training necessary to fit a horse for the Brooklyn Handi cap or the Suburban takes more out of him than the race itself. Lamplighter's form as a three-year-old caused the handicappers to give him the top weight in every race in which he was entered. His first race, the Brooklyn Handicap, was a bruising coulest from start to finish Sprewd trainers say that the race affected the coit's temper as he was repeatedly fouled and jostled in the first nile, and ran the last quarter under severe punishment, minishing second to Diable. He was some ordinary races after the bandicap, but was defeated in every important contest. The chances are that he will now get a let up, so that he can be raced in the all-aged stakes at the full meetings. St. Leonards did not start in the Stockton Stakes res

terday. The colt ran so bad a race for the Lorillard Stakes that his owners thought that he had lost his form and was not within fifteen pounds as good as before his trip to Chicago. Sir Walter is now halled as the champion of the three-year-old division. His race for the Stockton reflected credit on his trainer. Walter Rollins, as he was in perfect condition. Jockey Doggett rode him strictly to

one of the three-year-olds want anything to do with Sir Walter. Daily America is as fit to race as it is possible to have him. I haven't a single excuse to offer for him. He was well ridden and ran as good a race as I expected He was well rioden and rath as good a land of the him to run. Such a race would win unless your horse meets an exceptionally good colt. I offered to sell the Sunbeam colt (gow Daily America) to Mason, who trains for J. G. Follanshee, one day last winter. He was at my stable and admired the colt. I told him if he would pay the forfeits against him he could have him. The forfeits amounted to about \$1.200. He did not take my offer, and amounted to about \$1,200. He did not take my offer, and I was compelled to keep him. He has won over \$30,000 so far this season, and is likely to win some more races if he does not meet Sir Walter."

J. R. Keene was not present to see Hornpipe win

J. R. Keene was not present to see Hornplice win the Tyro Stakes. He is afflicted with a boil. F. P. Keene, with a party of friends, was present, and they secured positions in the grandstand where a good view of the finish could be had. The race was a hot one from flag-fall to finish. The pace was terrific. Sam Lucas, with 108 pounds on his back, acted as pace-maker until the last sixteenth, when Simi roused Hornplee and won, with something to spare, in the fast time of one minute. Dobbins ran an extremely game race. Lambley won, with something to spare, in the fast time of one minute. Debbins ran an extremely game ruce. Lambley punished him unmercifully for the last eighth of a mile. Horopipe's race stamps him as nearly first-class. This race caused turimen to say that he was next to Domino

in the two-year-old division.

Domino and El Telegrafo are at Brighton Beach, where they will be prepared for their engagements at Monmouth Park. Both of the coits stood the journey from Chicago without fretting, and are likely to be in first-class shape without fretting, and are likely to be in first-class shape when they are sent to the post. Lakeland and that nearly every Western trainer considered that Rudolph was thrown into the Columbian Handicap, as he shewed in all his races that he was capable of holding his own with the best ip training. # AT THE DETROIT DRIVING PARK.

SIVA CAPTURES THE MERCHANTS AND MANU FACTURERS' STAKES-THE OTHER RESULTS.

Detroit, July 18.-The Merchants and Mann facturers' Stakes was the attraction at the Driving Park and about 7,000 persons saw it decided. At the opening of the betting Fides Stanton, the great Canadian stallion, was the favorite at \$400, with Silver Star at \$325. Siva. \$250; Miss Lill. \$150; Mambritonian, \$50; Pittsburg Wilkes, #30; Koaline, #30; Chimes Girl, \$30, and the field, \$40. Just before the first heat there was a disposition to make Silver Star a favorite. Chimes Girl lamed herself while exercising and was withdrawn. The first heat was taken by Siva with trouble. In the second heat Siva led as far as three-quarters, where she broke hadly, and Silver Star shot into the lead.

Siva quickly caught her gait, however, and won by a length. Fides Stanton was a poor third. The next heat was simply a procession as far as first was concerned. There was a struggle between Mambritonian and Pearl McGregor for second and the former was victorious. Siva, by making the time in faster than 2:14, gets the \$500 offered by the club for the feat.

#### YACHT RACING IN THE SOUND.

andon to Shelter Island was won to-day by Rival and Awn, in the forty-six and forty foot classes respectively. The day opened with promise of fair weather and fresh breezes, but a half hour after the start the wind died away, and the run to Plum Gu savored more of a drifting match than of a face. It was just 12 o'clock when a gun boomed across the water from the flarship Water Witch. The racers in the mean time had gotten under way and were hoveting around the line off Osprey Bench Light. The breeze was then fresh from the southwest, and the forty-six footer Athene was the first to dart over. followed a few minutes later by the Roamet, of the class. The forty-six-footer Rival led all the way up Gardiner's bay, followed closely by the Awa and Penguin. As they neared the breakwater that faces Greenport the Rival did not run as close as she might and thus avoid the full strength of the tide. The Awa got a lead by this mistake and nearly linished alread of her. The Rival, though a winner, will probably not take the prize, as her owner. Vice-Commodore Sandtord, offered the prize himself. The Penguin will therefore probably be declared the winner among the forty-six footers, and the Awa among the forty-footers. The first starts to-morrow morning costs for Steilington. for Stenlington.

A BREAK OF FROM 2 TO 8 PER CENT ON LIGHT SALES.

AT A LOW EBB.

The stock market was more demoralized yesterday than it has been for a long time. Prices fell steadily, and the best clarses of dividend-payers lost 2#6 per cent A singular feature of the movement was the moderate volume of transactions recorded on so severe a break and the absence of local failures or rumors of embarrassments. The selling for London account was the moving cause of the depression, and all ad-vices from that centre agreed in pleturing a critical state of affairs. But the remarkable phase of the New-York market was the almost complete absence of buying power, except from operators who "covere short" contracts, and the apparent helpless prices under the pressure of liquidation.

This condition of speculation tells how seriously has

been the disturbance of confidence since the Demo cratic Administration came into power. Shrewd observers are not surprised at the situation, conside ing the course of events since last November. futile struggle to repeal the Silver Purchase law at the last session of Congress was followed by the refusal of President Cleveland to call an extra session of Congress or take any steps to check the growth of distrust. Such unfortunate steps as the threat of Secretary Carlisle to redeem Treasury notes in gold and the suggestion of making a new issue of green backs, together with the hostile attitude maintaine for a long time by Mr. Carlisle toward the banking community of New-York, tended to aggravate distract here and abroad. Wall Street men are beginning to recognize that beyond the evil effects of silver in tion lie other important causes that repress con fidence. The menace of disturbance to the country by an attack on the turiff has bee little discussed in the clamor over the repeal of the Sherman law, but the increased number of mills and factories cloging and the shrinkage of general business are beginning to force the tariff question upon the attention of the community. The calling of the extra session of Congress failed to revive confidence because of the doubt as to the conduct of the Democratic majority and the fear that remedial legisle tion on silver would be succeeded by equally unwise impering with the currency and finances. The Administration created an unfavorable impression at the start by its unsettled and uncertain Treasury poli-cy, and to day even President Cleveland fulls to enjoy all the confidence that was reposed in him when he took the Presidential chair. Men have struggled to keep up hope that some escape would be had from the increasing disturbances in financial circles, bu it must unhappily be admitted that the prospect of nocratic legislation and administration is so clouded with doubt and uncertainty that the outlook is con-

fronted with fear and questioning. To this state of sentiment must be ascribed the unfortunate lack of rallying power shown by the security markets in spite of declines which have been continuous and severe. The liquidations compelled by the unsettled conditions in London find no off-setting influences in the position here. Yesterday's cable advices spoke of many rumers in London of financial troubles. The name of Crews, Lichtinstadt & Co. was mentioned as that of a firm which had njustifiable speculations of the authorized clerk the house, who was dropped from the firm some tim ago. The rumors, however, related to other concerns of these is a private banking house with cor special interests in Spanish and Mexican mining com stock Exchange house duing a large arbitrage business in international foreign stocks between London, Paris. A Wall Street news agency received the following cable dispatch: "Nobody declarable until the settle ment next week. Improper therefore to give any of the names mentioned. Rich man's panic in full swing." The London correspondents of August Belment & Co. and Ladenburg, Thalman & Co. tele graphed that no complication of any large house But whatever was the cause the cable dis

Wall Street is accustomed, on such severe breaks as that of yesterday, to see a record of 690.000 to 800.000 shares.

The bond market was equally weak and defenceless against the selling movement. Northern Facilic consolidated 55 fell 5 per cent to 55, and Eric seconds 4 per cent to 74. Archison 4s fell 1.1-8, such the seconds 3 per cent; Chicago and Northern Facilic consolidated 55 fell 2 per cent, and numerous other issues lost 1 per cent and over.

Through the demoralization money on call continued easy, with rates at 55.8 per cent. No changewas reported in other monetary conditions, and considerable currency was received from the Interior. The Chearing House Loan Committee cancelled \$5.00,000 new ones. No issues were made in Boston. The foreign exclusives advanced further, owing to caster money cutting of the supply, of lean bills, to decreasing offerings of commercial bills, and to an increased demand for remittance on account of sales of American securities by Europe. But word was received from the Sub-Treasury was debtor to the Clearing House \$600,000 can signed to one house since last Saturday. The Sub-Treasury was debtor to the Clearing House \$600,000 circ shipment in goid coin received a negative answer from the Sub-Treasury officers.

# ACTIONS OF COMMERCIAL BODIES.

The Chamber of Commerce has received from kindred oddles, in various parts of the country, copies of resolutions which each of these bodies has adopted regarding the repeal of the Silver Purchase law. Among the associations which have taken action are the Merchants and Manufacturers' Association, of Norfolk; the Milwankee Merchants' Association; the New-Orleans Chamber of Commerce; the Chamber of Commerce of Richmond; the Jobbers and Manufacmrers' Association of Sloux City; the Charleston Chamber of Commerce; the Savannah Boarl of Trade; the Memphis Cotton and Merchants' Exchange; the Petersburg Chamber of Commerce; the St Chamber of Commerce; the Board of Trade of Detroit; the Chainnati Stock Exchn ze; the Fliddelphia Board of Trade; the Plitt-burg Chamber of Commerce; the Louisville Feard of Trade, and the Reading Board of Trade, Earth of the organizations named favored the repeal of the law.

LOW PRICES FOR WHEAT.

Wheat yesterday touched the lowest price at which it was ever bought in the New-York Produce Exchange, and those prokers who last fall paraled with banners upon which were inscribed the words; "Cleve-land and dollar wheat," were not in the most enthustastle humor. A year ago September wheat sold Justice Fuller, of the United States Supreme Court, 74 3.4 cents a bushel. It opered yesterday at 74 3-4 cents. The highest price which it reached was 74 7-8 cents, and the lowest 73 1-2 cents. It closed at an even 74 cents a bushel. For the

export trade 480,000 bushels were taken. A year ago August wheat sold for 85 1-8 cents a bushel, but yesterday it opened at 72 1-2 cents. It sold up as high as 72 5-8 cents, and as low as 71 3-8 cents. a bushel. The closing price was 71 5-6 cents. This is a considerable amount below the dollar wheat which was promised last fall.

SECRETARY MORTON TALKS ON CROPS. HE ALSO TOUCHES ON BEEF, SILVER AND THE

EXTRA SESSION. J. Sterling Morton, Secretary of Agriculture, spent yesterday in New-York on private business. He was a guest at the Helland House, and started last evening for Detreit, where he is to spend a few days before going on a vacation into the woods of Northern Michigan.

It was reported that Secretary Morton had comto New-York to call especially on "Farmer" Dunn, of he Weather Bureau, who is looked upon as the most probable of the probabilities for the position of chief the Weather Fureau in Washington.

The Secretary was seen at the Holland House ye erday afternoon. He laughed at the idea that his visit had been made for the purpose of seeing Mr. Dunn. He said he had not called on Mr. Dunn, though of the latter's possible transfer to Washington he would not speak.

Secretary Morton spoke of the general condition of the crops throughout the country, and said that there was every indication of an abundant harvest. Corn, hay and oats, he thought, would be produced in unusually large quantities, and large supplies of these productions would be shipped to foreign countries The Secretary said his department at present was trying to compile accurate statistics of the production and consumption of beef in the United States. On no meat, he thought, had the feeders lost so acavily, in the last year, as on beef. thought, was due, in part, to the increase in consump

The silver question and the action the extra ses ion of Congress will take were also touched upon by Secretary Morton. He has always been opposed to the free coinage of silver. He referred to the proposition made to him by Senator Jones, of Ne vada, recently, in which Senator Jones spoke of his seing able to tie up the senate should that body breaten silver. Mr. Morton did not think such a thing would occur.

What do the people want?" he said. "That ought to be found out and offered as near as possible, bet the silver law be repealed and have either gold or silver made legal tender at the option of the puyer; it would soon be seen which the people wanted. Let those who say that silver is as good as gold see if it is."

Colorado, Secretary Morton thought, had hurt its cause by its extreme silver utterances. "Rioed up to the horses' bridles' and all that sort of talk," said the secretary, "is nonsense, and only hurts their cause." aught to be found out and offered as near as possible

CONTROLLER ECKELS MEETS THE BANKERS. HE FRANKLY ADMITS THAT HE KNOWS LITTLE ABOUT BANKS OR FINANCE.

The Controller, and his guide first went to the Third National Bank, of which A. B. Hepburn is president. was his prodecessor in office. At this bank Mr Eckels met a number of bankers who had learne that he was there. Mr. Eckels had no hesitane; in telling those whom he mot that he knew com-paratively little about the banking business and thu had come here to learn.

In stature the new Controller is undersized, and at first sight appears to be little more than a boy. He seems to have a clear mind, however, and is a good listener. Mr. Eckels talked freely to the newspaper men who saw him. He declared that he had not come here on business, nor to hold any conference with the New-York bankers, but simply to secome acquainted with the bankers of this city Regarding the financial situation he said: "I believe that there will be an improvement soon

# THE SCHLEISINGERS MAY RESUME.

Negaunee, Mich., July 18. Superintendent Cale has returned from Milwankee, where he conferred with Ferdinand Schleisinger, president of the Buffalo Mining Company and head of the Schleisinger syndicate. It is expected that money for the payment of all claims on which attachments were based will be no uneastness and the general opinion is that the embarrassment will be speedily relieved. Dispatches from Iron Mountain say that the employes of the Chapin mine at Iron, Mountain, operated by the syndicate, will be paid a month's wages on Wednesday, which is a favorable indication of the syndicate's ability to Weather the storm.

OTHER BANKS FORCED TO SUSPEND. Fort Scott, Kan., July 18 .- The First National Bank

Kansas City, July 18.—Although last night the bankers of Kansas City did not expect to get through to day without trouble, none came; and the impression prevails that to day marked the beginning of the end of the recent financial flurry. There is evidence to day that the people have stopped to think. It is a notable fact that no man who had money in the bank of Kansas City or the Missouri National has the slightest doubt of getting every cent of it. The banks in Kansas City which have failed are the National Bank of Kansas City Safe Deposit and Savings Bank, and the Bank of Grand Avenue, the latter being a State bank.
